## DOGGY STORY: MOLLY

**BORN:**

Oct 22

**RESCUED:**

Jul 23

**ADOPTED:**

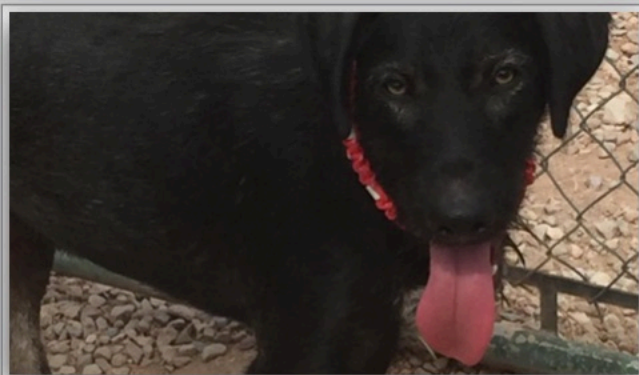

Oct 24

**ADOPTION No:**

293

Molly was found in St Catarina collapsed in a garden. She still had a chain attached so we suspect that she had escaped. In really bad shape and covered in hundreds of ticks and fleas, she had given up and wouldn't move. We were contacted through our charity shop and she was rescued and taken to the Vet immediately where no chip was found and she was diagnosed with anemia. She had numerous wounds and treatment was started immediately.

By September, after being fed up a storm, medicated and loved by Sharron, Molly was like a different girl. She loves cuddles and wants to be around people..... she's a bundle of energy and loves it when you throw the ball for her. She's been chipped, vaccinated and sterilised, so she's ready for her "forever" home.

Molly.... out for a walk and showing her appreciation!
