Dolcephina is a pure-bred Wire-Haired Daschund.... she weighs around 7.5 kg and is around 10 years old.

This lovely little girl is a fully trained therapy dog and she was helping a lady who was suffering from anxiety and depression. Unfortunately, the lady passed away and poor Dolcephina was left without a home.

She is an absolute darling..... so soft, gentle, calm and trusting; she looks into your eyes as though she's seen you before and knows you. Dolcephina has had all her Vet checks, her vaccinations are up to date and she's been sterilised. She has gone to live with Michael and William and their 5 Daschunds, 1 Labrador and 1 Podengo in São Bras.... apparently she has settled and is loving her new family.
